

What are vectors

пятница, 29 марта 2019 г. 20:19

Vector perception,

Phys. Stud. \rightarrow arrows pointing in space

- length
- direction
- 2D/3D

CS Stud. \rightarrow ordered list of #s

Mathematic \rightarrow generalis. any.

~~coord~~

Can + or \times .

algebraic properties.

For 3B1 Brown

- think about \vec{v} as arrows in coordinate space
- \vec{v} are written vertically
- points are horizontal
